Re: Elite Detection Dogs

To Whom it May Concern;

I can confirm that I have dealt with Sherri Hall, Owner and Founder of Elite Detection Dogs since March 2012, during which time Elite Detection Dogs has provided Hamilton Public Libraries with excellent support in the areas of bed bug scent detection K9 services. They support the ongoing provision of scent dog detection services. Sherri's work is outstanding and has been an important factor in helping maintain our high standards of bed bug control in all 24 of Hamilton's libraries.

I can confidently recommend Elite Detection Dogs as a solid, reputable and reliable supplier, and experts in their field.

Sincerely,

*Robin Hewitt*
