We at Nimby Wildlife & Pest Control would like to thank Sherri Hall and her staff at Elite Detection Dogs for the outstanding service she provides with regards to bed bug detection and goose management services. Elite Detection Dogs is a very versatile company as has demonstrated their commitment to quality and highly dependable services on many of our job sites with respect to detection services. To have one properly trained dog is asset, but to have the ability to train and maintain 30 or more high quality detection dogs and goose management dogs demonstrates the commitment that is required by Elite Detection Dogs to truly be Elite. Sherri Hall is very knowledgeable of her business and has the business acumen to be very successful at what she does. Working dogs have to work and be very accurate especially when it comes to detection of bed bugs. Constant training of the dogs and the commitment of staff and the willingness to raise the bar compared to industry standards is the hallmark of Elite Detection Dogs. Good luck with the nomination.

Yours sincerely,

Paul Adam

President
NIMBY Wildlife & Pest Control
